

Module 6: Early Intervening Services and Response to Intervention

Alert! Alert!

Because NICHCY's website will only remain online until September 30, 2014, most of its rich content has moved to a new home, the **Center for Parent Information and Resources** (CPIR), where it can be kept up to date.

The new address of *Module 6: Early Intervening Services and Response to Intervention* at the CPIR is:

***Este módulo está disponible en español: Servicios de Atención Temprana y la Respuesta a la Intervención*

Module 6 is a great way to learn about and train others on these two new elements in IDEA.

- **Early Intervening Services (EIS)** are for K-12 students with academic or behavioral difficulties who are not yet identified as having a disability.
- **Response to Intervention (RTI)** is a new approach to identifying whether a student has a specific learning disability.

Module 6 is available in English and Spanish, as you'll see below. It includes:

- a slideshow in English;
- a slideshow in Spanish;
- a Trainer's Guide explaining the content to be presented;
- handouts for participants in either English or Spanish.

Please help yourself below, and download the components you need to learn on your own and/or to train others regarding EIS and RTI.

Component #2: Trainer's Guide to the Content

This guide to Module 6 is in English but should also be downloaded if you're training in Spanish. That's because *here* is where you'll find the full explanation of each slide's content. It also offers much additional info so that trainers can adapt training sessions to a length or detail suitable to the given audience.

Component #3: Handouts for Participants | Folletos para Participants

The handouts for Module 6 are included in a packet of handouts designed to cover the entire umbrella topic of Theme B, IDEA and General Education. If you've downloaded the handouts for Theme B already, you have the handouts you need for Module 6. If you haven't downloaded any handouts for Theme B yet, then here they are in 2 different formats and 2 different languages:

Handouts in English

[Word | English Handouts for Theme B](#) (Accessible Word file)

Handouts in Spanish | Folletos en Español **

[Word | Los Folletos para la Tema B](#) (en archivo accesible)

Note about the Spanish Translations:

In preparing the handouts in Spanish, NICHCY has chosen to use a certain vocabulary set for the terminology most frequently used in IDEA. IDEA itself is extremely and purposefully consistent about its terminology, and we felt it critical to do the same in Spanish. However, we fully recognize that there are many ways to say the same thing, and Spanish is rich with alternatives from country to country, region to region. So we've also prepared a glossary of the terminology used in IDEA, how we've rendered that terminology in Spanish, and other ways of rendering it that families may also hear. Share this with participants as you see fit or use it to guide your own translations. The glossary of terminology is available in two formats, PDF and Word:

- [PDF](#) | Glossary of English-Spanish Terminology
- [Word](#) | Glossary of English-Spanish Terminology

There! You have all you need for Module 1.

Please remember that these materials are designed to be thorough and authoritative sources of info on IDEA 2004. That's why they are so detailed. ***As a trainer, you are free to adapt the info we've offered to serve the purposes and needs of your audiences and the amount of time you have to spend with them.***
